Keywords: *Chinese language and literature. cultural inheritance. value.*

1. Introduction

China is an ancient civilization with a history of 5,000 years, among which the most admired by the world is China's cultural accumulation. Chinese language and literature is a form of traditional cultural expression composed of Chinese characters and Chinese language, and the most important feature of text and language is its distinct continuity and inheritance, and its strong ability of self-renewal and self-growth.

2. Exploring The Value Of Chinese Language and Literature Research In Cultural Inheritance

2.1. Concept and role of Chinese language and literature

The Han language mainly refers to the language used by the Han nationality, which is not only the common language in China, but also one of the languages widely used in the world. As a representative of the apparent system, Chinese characters have been very stable in characters since ancient times [1]. Chinese language and literature, as a discipline, mainly study the words and usage of Chinese language, and appreciate ancient and modern poems, novels, prose and other literary works. Chinese basic knowledge part from Chinese, from the origin of deep, in the analysis of the evolution of Chinese historical development and its nature and characteristics, guide the reader from the structure of words, words, sentences and use methods systematically understand the uniqueness of Chinese. The broad Chinese also includes symbolic Chinese characters, and the literary works created with Chinese characters can be uniformly summarized into Chinese language and literature [2]. As Chinese characters, as the representative of the ideographic system of characters, have been very stable in the sense of zigzag characters since ancient times, making both Chinese and Chinese language and literature show distinct continuity and inheritance, which provides a coherent and complete premise for the study of Chinese language and culture.

2.2. The Value Of Chinese Language and Literature To Cultural Inheritance And Development

2.2.1 To Enhance People's Deep Understanding Of Cultural Inheritance

The biggest characteristic of Chinese language and literature in Chinese culture is that Chinese language and literature can express its meaning simply and emphatically. Therefore, this characteristic

of Chinese language and literature also makes Chinese culture have its unique charm. Chinese language and Chinese development from ancient times to now, can have used different combinations to express a lot of different meaning, Chinese language and literature has had a profound influence on Chinese culture, cultural researchers will be deeper research of Chinese language and literature, let Chinese language culture with the long history of people with positive energy[3]. In the contemporary society, the development of the Chinese language and literature has been very perfect, but the Chinese language and literature is still more perfect under the research of various scholars. Therefore, with the development and inheritance of the Chinese language and literature, the Chinese culture has also made great progress, and it is also constantly improving and developing.

2.2.2. Role In Chinese Language And Literature In Chinese Culture

The biggest characteristic of Chinese language and literature is that it can express its meaning simply and emphatically. Therefore, this characteristic of Chinese language and literature also makes Chinese culture have its unique charm. Chinese language and Chinese development from ancient times to now, can have used different combinations to express a lot of different meaning, Chinese language and literature has had a profound influence on Chinese culture, cultural researchers will be deeper research of Chinese language and literature, let Chinese language culture with the long history of people with positive energy[4]. With the development and inheritance of Chinese language and literature, the Chinese culture has also made great progress, and is also constantly improved and developed.

2.2.3 The pursuit of Chinese language and literature has an influence on human self-cultivation

Human self-restraint is reflected in many aspects, such as behavior thought, values, and really judge whether a person has a good self-restraint, Chinese language and literature, make the abstract values and ideas in the form of text expression become more concrete, good literature contained in ideological values and ideas constantly imitation, under its guidance will naturally internalize its ideological values into their own ability, embodied is the cultivation of growth and rich [5].

2.3. Cultivate The Inheritors Of Traditional Culture

The study of Chinese language and literature is a main way of cultural inheritance, a kind of academic level, and understands the theoretical connotation of traditional culture through professional theoretical learning. However, its deficiency is that the practical level is relatively shallow[4]. Folk inheritance is another way of traditional culture inheritance. However, it presents a rich and a variety of cultural forms through folk practice. However, the defect of this inheritance mode lies in the lack of theoretical norms, and the inheritance form is relatively scattered and disorderly, which is not conducive to the sustainable and effective inheritance of traditional culture.

3. Conclusion

Chinese language and literature are the soul of Chinese culture, an important component of the development of Chinese culture, and the most important form of communication for a nation. Chinese language and literature have a special cultural inheritance value and significance. Dig the essence of the excellent traditional culture of the Chinese nation, deeply interpret the content of Chinese language and literature, and appreciate the value leading function of Chinese language and literary works. And integrate the study of Chinese language and literature into practical life to realize the cultural inheritance and development of Chinese language and literature from multiple angles.
