**Keywords:** *Higher Vocational Colleges; "Three All-round Education"; Ideological and Political Education System*

## 1. Introduction

As an important part of modern ideological and political education, "three complete education" has been incorporated into the important contents and links of Ideological and political education in higher vocational colleges. Combined with the classroom setting system of higher vocational colleges, the ideological and political education outline in line with the development of students in higher vocational colleges has been established. Combined with the optimized classroom training mode and talent construction system, it provides "three complete education" for higher vocational colleges. The research on the ideological and political education system has given a new connotation of the times. In the work of students and ideological education in higher vocational colleges, the political sentiment and core values of college students are cultivated through the educational concept of "three complete education", which reflects the state's attention to ideological and political education and quality education in higher vocational education, and puts students' vocational skill learning and professional quality into students' quality education, but enhances the classroom appeal of Higher Vocational Colleges [1]. Construct the ideological and political education outline of the new era of "three complete education", introduce the ideological and political education talent system through the forward-looking ideological and political education system structure, and integrate the legal education, post skill education, integrity education and industry development education through the three complete education, so that the quality training of students can meet the requirements of sociality, legality and people's livelihood. In education and higher vocational teaching practice, we should also pay attention to current affairs and political education, and the standard, system and structure of Ideological and political education should be continuously improved. Sanquan education has the whole process and penetration in the ideological and political education of higher vocational colleges. Under the environment of Sanquan education, the standard system of Ideological and political education should meet the learning requirements of higher vocational college students. Through the development of new courses, combined with network

education and practical education, create an ideological and political education environment of Sanquan Education under the background of the new era, so as to help the ideological and political education. While meeting the needs of students in Higher Vocational Colleges to grow and become talents, it provides a theoretical basis for the construction of national ideological and political outline and the reconstruction of morality. Therefore, the research on the ideological and political education system of "three complete education" in higher vocational colleges is of great significance in promoting the ideological and political education of higher vocational college students and improving teaching quality. Effectively improve and guide the learning atmosphere and efficiency of Ideological and political education for students in Higher Vocational Colleges through three complete education [2].

## **2. Principles of "three complete education" and ideological and political education in Higher Vocational Colleges**

### ***2.1. Based on the school running environment of higher vocational colleges, reflect the needs of higher vocational education***

In the education system of "Three All-round Education" in higher vocational colleges, look at the characteristics and environment of higher vocational colleges, combine professional education and moral education, and introduce the school's advantageous discipline construction, which must be in line with the school running of higher vocational colleges. The environment and the characteristics of students' success. Based on the educational environment of higher vocational colleges, reflecting the needs of higher vocational education, it is necessary to show the height of the forefront of the times, and lead the cultivation of political literacy of students in higher vocational colleges through the socialist ideology with Chinese characteristics, and through the creation of society, positions and social values as one The cultural development and educational concepts of higher vocational colleges promote the social and campus nature of the political education of Sanquan Education in a harmonious environment. To build a team of talents and experts for ideological and political teaching in higher vocational colleges, it is also necessary to stand in the perspective of students in higher vocational colleges and actively enrich the spiritual and cultural activities of teachers and students. The connotation of the new era of "full" education. Therefore, in the higher vocational ideological and political education system, it is necessary to integrate the educational resources and management concepts of the three-dimensional education, in the ideological and political education classroom, in the ideological and political teaching position, and leading the world view In the process of cultivating the outlook on life, ideological and political education must first maintain consistency with the party's basic ideas and theories. At the same time, it must pay attention to the timeliness of the ideological construction system. Under the background of new ideas and new trends, combine current affairs, politics and social hotspots to make a presentation. And theoretical analysis, to ensure that the ideological and political education system of "three comprehensive education" in higher vocational colleges meets the principle requirements of real-time and timeliness [3].

### ***2.2. Promoting action with knowledge, practicing knowledge with action, the practical principle of ideological and political education***

In the context of the new era, the standard system of ideological and political education should meet the background of the times and the requirements of the school history and school spirit of higher vocational colleges, emphasizing the ideological guiding principles of Sanquan Education in regulating the value construction of college students, and adopt practicality and principles. The advocacy of sexual guidance meets the requirements of practical teaching. The fundamental of Marxist ideology is also practical. In the ideological and political education system of the "Three Comprehensive Education" in higher vocational colleges, it is necessary to fully demonstrate the practical needs of the Three Comprehensive Education. From the perspective of the times and the frontier, pass Introduce advanced education resources and online education resources, improve the "Three Completes" moral education work system, and introduce the idea of morality and cultivation into the ideological and political education syllabus system of the Three Completes Education. The education and teaching links must be adequate Demonstrate the practical education standards and principles of Sanquan Education. Apply the teaching concept of full-course education and all-round education to practical education, formulate a practical education standard system in the practical education system, and improve the teaching quality of higher vocational colleges under the guidance of the concept of "three holistic education" [4]. Combined with the school's statistical information, the current planning and

practical input and output results of Sanquan Education are shown in Table 1.

*Table 1: Statistics on the value of Sanquan Education in recent years*

Years	Teacher investment ratio	Project investment ratio	Student grade point growth rate
2014	12.3885	5.4725	5.1506
2015	12.7338	5.275	4.9647
2016	12.8633	5.445	5.1247
2017	13.036	5.3925	5.0753
2018	13.2086	5.1375	4.8353
2019	13.3813	5.3425	5.0282
2020	14.1151	5.2025	4.8965
2021	14.3741	5.245	4.9365

Analysis Table 1 shows that in recent years, the proportion of teachers' investment in the ideological and political education system of the school's three-dimensional education has increased year by year, which has reshaped and led students' moral values and has shown significant practical value.

### ***2.3. The Developmental Principles of Ideological and Political Education of Sanquan Education***

In higher vocational education, we always attach importance to the fundamental and developmental nature of three-dimensional education, explore the foundation that is in line with the development and learning of students in higher vocational colleges, and promote the all-round and all-round development of the political education system through a development perspective, and build an optimized The political education system is compared and distinguished from the same type of undergraduate colleges and universities, can withstand the test of diversified content, and improve the development position of political education.

## **3. Main countermeasures for the construction of the education system**

### ***3.1. Integrate innovative development mechanisms to promote the improvement of the ideological and political education system***

As the main guiding ideology for leading ideological and political education, the educational concept of "Three-Comprehensive Education" in higher vocational colleges requires the development of excellent educational resources of the school and the integration of relevant media of ideological and political education. With new media technology, in higher vocational classrooms, it integrates ideological and political education and skills education, builds an education system that conforms to the integration of student quality education development systems, adheres to moral education, and gives full play to the instinctive advantages of political education. In the ideological and political education media system, through the integration of ideological and political education's scientific research and education and the new era of higher vocational education ideas and concepts, so that students can have sufficient interest in ideological and political education and apply the knowledge of ideological and political education In science skills education. Explore the construction of the ideological and political education system, so that students can absorb nourishment in the fields of new network media and traditional culture, and fully expand students' knowledge horizons.

### ***3.2. Coordinate the development of discipline construction and improve the construction of standard classroom system***

In the ideological and political education system of "three complete education" in higher vocational colleges, it must be combined with discipline construction and curriculum construction. Starting from the development and resource construction of the whole college, it is necessary to establish an ideological and political education system of "three complete education" in Higher Vocational Colleges in line with the curriculum development and discipline development in the new era. Through the optimized system structure, Starting with enhancing the appeal and classroom appeal of Ideological and political education, build a global education system to make the "three complete education" Ideological and political education system in higher vocational colleges meet the needs of the development of the times and play a leading role in promoting the education of Chinese traditional culture. In the work of

students and ideological education in higher vocational colleges, through the educational concept of "three complete education", cultivate students' political sentiment and core values, improve the curriculum system construction from the aspects of ideological character and ability development by improving the standard classroom system and integrating the education system in line with the ideological and moral development of students in higher vocational colleges.

#### 4. Conclusions

Sanquan education has the whole process and penetration in the ideological and political education of higher vocational colleges. It creates an ideological and political education environment for Sanquan Education under the background of the new era and helps the ideological and political education. From the perspective of the times and cutting-edge, by introducing advanced education resources and network education resources, improving the "three complete" education and moral education system, integrating the ideas and ideas of Higher Vocational Education in the new era of scientific research and teaching of Ideological and political education, so as to cultivate college students' political sentiment and core values, Further improve the curriculum system and discipline construction system of Ideological and Political Education under the three complete education. Through the development of new courses, combined with network education and practical education, create an ideological and political education environment of three complete education under the background of the new era, clarify the key teaching contents, and imperceptibly improve the ideological and political morality and value management of higher vocational college students, so as to improve the overall quality and patriotism of students.
