ABSTRACT. *Cultural self-confidence is the root of the self-confidence and development of the construction system, theory and development path. The self-confidence basis of the socialist culture with Chinese characteristics is to inherit the traditional national culture of our country, and also undertake the spiritual civilization of the country. Extremely heavy historical advantage. Therefore, this article explores the current situation in the new era, how to carry out the self-confidence education of socialist culture with Chinese characteristics, cultivate students' spiritual motivation to form a "cultural personality" and develop excellent cultural talents.*

KEYWORDS: *socialism with Chinese characteristics; cultural self-confidence; self-confidence education*

1. The inherent meaning of cultural self-confidence

General Secretary Xi Jinping pointed out in the report of the 19th National Congress of the Communist Party of China that the Chinese traditional culture originated from the 5,000-year civilization history of the Chinese nation was cast in the revolutionary culture and society created by the party leading the people in revolution, construction and reform. The advanced culture of socialism is rooted in the great practice of socialism with Chinese characteristics^[1]. "Cultural self-confidence is a more basic, deeper and more lasting force in the development of a country and a nation." General Secretary Xi's speech is high-profile and meaningful, and it is precisely because of this.

The 19th National Congress of the Communist Party of China put the socialist culture with Chinese characteristics into the party constitution along with the socialist road with Chinese characteristics, the theoretical system of socialism with

Chinese characteristics, and the socialist system with Chinese characteristics^[2]. This is conducive to the whole party deepening the understanding and comprehensiveness of socialism with Chinese characteristics. Grasping the connotation of socialism with Chinese characteristics, it also accurately reflects the new requirements of China's economic and social development, the new trend of cultural development in the current era, and the new expectations of the spiritual and cultural life of all ethnic groups.

In the historical changes of thousands of years, the Chinese nation has never been smooth sailing, and has encountered countless hardships and difficulties. But we have come over and come over. One of the most important reasons is that the Chinese people have been nurtured and developed for generations. The unique and profound Chinese culture provides a strong spiritual support for the Chinese nation to overcome difficulties and livelihood^[3]. As an important part of the socialist construction with Chinese characteristics in the new era, "cultural self-confidence" has pointed out the direction for the construction of socialist culture with Chinese characteristics, and will also have important guiding significance for the development of the values, outlook on life and world outlook of contemporary Chinese youth. . As Xi Jinping pointed out in the report of the 19th National Congress of the Communist Party of China, "Culture is the soul of a country and a nation. Culture is a prosperous country and a culture is strong and a strong nation. Without a high degree of cultural self-confidence, without the prosperity of culture, there will be no China. The great rejuvenation of the nation."

2. The significance of cultural self-confidence thinking to youth education in the new era

2.1 Guide young people to learn and firmly believe in socialist culture with Chinese characteristics

The idea of "cultural self-confidence" requires that young people must learn and believe in the socialist culture with Chinese characteristics^[4]. The national culture and the independence of the nation depend on each other and are inseparable. Because the main body of culture is the nation, the soul of the nation is culture, the

culture is prosperous, the culture is dead, and the culture is dead. Therefore, learning and agreeing with the national culture is the premise and foundation for maintaining "cultural self-confidence". Teaching young people with socialism culture with Chinese characteristics not only requires vivid content to tell young people about socialist culture with Chinese characteristics, but also requires them to guide young people to profoundly study and understand the rich connotation of socialist culture with Chinese characteristics, to form cultural consciousness, and to establish a society with Chinese characteristics. Strong confidence in the culture of culture.

(1) Play the role of the main channel of school education

Schools should strengthen organization and team security, set up special institutions and personnel to educate young people on socialist culture with Chinese characteristics, make good use of classroom teaching, integrate socialism culture with Chinese characteristics into textbooks, and prepare special socialist cultural books with Chinese characteristics and theoretical publications. To realize the transformation of the teaching material system into the teaching system, and truly enter the teaching materials, enter the classroom, and enter the students' minds^[5].

(2) Enrich the connotation of the era of socialism with development characteristics

Deepen the essence of the advanced culture of socialism with Chinese characteristics and fully demonstrate its Chinese characteristics. It is necessary to combine Chinese history and reality to create cultural works that are popular among young people, especially to enhance the creation of multimedia works, to realize socialist cultural education with Chinese characteristics, to reach young people at any time and in any place, to inspire and inspire young people's national pride and national identity.

(3) Innovative young students' education methods

The ultimate goal of education is to enable young students to accept cultural education in a subtle process, to form cultural self-awareness and self-education. This requires educators to be good at using various forms of cultural education, vividly and concretely display the socialist culture with Chinese characteristics, vividly educate contemporary youth with high-level and high-quality works, and

lead young people's ideas with truth, goodness and beauty. Form a joint effort of school education, family education, and community education. Through the all-round development of school education, community education, and family education, we will create a good cultural environment for young people and truly realize the socialist culture with Chinese characteristics^[6].

(4) With the help of the network new media platform

Through the use of online new media and other platforms, we will actively promote the mass communication of socialist culture with Chinese characteristics. Strengthen the control and guidance of network culture communication, strengthen the construction of mainstream cultural positions, and create a healthy and upward network culture environment. In short, letting young people learn and firmly believe in the socialist culture with Chinese characteristics requires schools, communities, families and society to work together to develop a special socialist culture education with Chinese characteristics.

2.2 Guide Youth to Innovate and Develop Socialist Culture Confidence with Chinese Characteristics

The socialist culture with Chinese characteristics has both Chinese excellent traditional culture, Chinese revolutionary culture, and socialist culture. It has the same line, continuous innovation and development, and has a strong vitality. It is a great culture worthy of the Chinese people's "confidence." On the basis of comprehensive understanding and learning of the fine traditional culture of the Chinese nation, young people should strive to enrich the era connotation of socialist culture with Chinese characteristics and continuously innovate and develop socialist culture with Chinese characteristics on the basis of combining the characteristics and requirements of the new era. On the basis of comprehensive understanding and learning of the fine traditional culture of the Chinese nation, young people should strive to enrich the era connotation of socialist culture with Chinese characteristics and continuously innovate and develop socialist culture with Chinese characteristics on the basis of combining the characteristics and requirements of the new era.

(1) Social Linkage School provides an open platform

Society and schools must provide a platform for innovation and development of socialist culture with Chinese characteristics. We must adhere to the principles of openness and hierarchy so that young people of different ages and levels of thought can acquire the nutrients of advanced socialism with Chinese characteristics on the cultural platform. And actively improve and enhance themselves.

(2) Strengthening the influence of cultural self-confidence through media consolidation

Mainstream media, newspapers, campus media and other public opinion positions need to open up a platform for youth innovation and development of socialist culture with Chinese characteristics, and provide guidance and assistance for young college students to innovate and develop socialist culture with Chinese characteristics, thereby consolidating and deepening the advanced culture of socialism with Chinese characteristics. The impact on young people encourages young people to bravely develop and be down-to-earth on the road of life development.

(3) Inheriting innovative culture and self-confidence

Youth inheritance and innovation of the Chinese traditional fine culture requires a broad platform for the society, in which families and schools play an active role in guiding and promoting education; the party and the government should strengthen the culture of bookstores, schools, museums, libraries, community cultural centers, etc. Guide and construction of industrial and cultural undertakings, improve the venues, conditions and media for youth innovation and development of socialist culture with Chinese characteristics, actively guide and encourage young people to engage in innovation and development of socialist culture with Chinese characteristics, and participate in socialist culture with Chinese characteristics. The development of innovation and ambitious career. Therefore, youth innovation and the development of socialist culture with Chinese characteristics require the whole society to work together to build a broad platform for youth innovation and development of socialist culture with Chinese characteristics.

3. Conclusion

The socialist culture with Chinese characteristics will surely bring us to the future of the great rejuvenation of the Chinese nation. Adhering to "cultural self-confidence" is the responsibility and historical mission of the contemporary Chinese youth. Young people need to profoundly understand the ideological connotation of "cultural self-confidence", profoundly understand and grasp the new era requirements of socialist culture with Chinese characteristics, adhere to the Marxist cultural concept, continue to inherit and develop socialist culture with Chinese characteristics, and actively demonstrate and spread in exchanges and learning. Socialist culture with Chinese characteristics.
